To Whom It May Concern:

I represent KOFO Radio, a small-market station in Ottawa, Kansas. I am filing this response to the FCC in regards to MB Docket No. 04-232.

I understand the need for better record keeping practices in order for the FCC to enforce its obscenity and indecency regulations. However, being an independently and singly owned small-market station, requiring us to record an entire day's broadcast and store it for up to 90 days would place a substantial monetary burden upon our already financially weakened shoulders. It is just not economically feasible for us to meet these new regulations.

Only if certain concessions were granted to small entities would we be able to meet these newly proposed requirements. Such concessions could include a shorter retention period and a smaller portion of the daily broadcast be required to be recorded.

Sincerely,

---

Bradley A. Howard  
President & General Manager  
KOFO Radio
